

**PRESS RELEASE**  
**FAGOR ACHIEVES RECORD RESULTS FOR 2008**

Fagor, part of De Dietrich Kitchen Appliances Ltd. has achieved record sales results in the UK both for the year to date and for the period of September year on year. Sales for the kitchen appliance brand are currently 15% up overall for the year to date and in September achieved its best ever month, with a 31% increase over the same period last year.

*Richard Walker, sales and marketing director of De Dietrich Kitchen Appliances says:*

'Following an excellent KBB show in March, which displayed a strong, yet targeted product offer for Fagor, our proactive sales team has since generated many new accounts. With an additional five year warranty offer we have been able to buck market trends, and I am genuinely pleased with these results. However, we all know the market is going to be very tough going forward, but for now it is great to report some very positive results.'
